

CLOCKS ADVISERS FORUM

Contact List of Turret Clock Restorers

Code of Practice for Turret Clock Work:

The first edition of the Code of Practice for Turret Clock Work came into effect on 19th May 2018 after wide consultation with those concerned with the repair and conservation of turret clocks in the United Kingdom.

For technical reasons it may occasionally be necessary to slightly deviate from the Code of Practice in the best interests of the clock. In which case a confidential second opinion should be obtained from the Turret Clock Advisory Panel who will give guidance.

As this Contact List of Turret Clock Restorers appears on the Clocks Advisers Forum website which hosts the Code of Practice it only contains those individuals or companies who have stated that: **“All our work on turret clocks complies with the Code of Practice for Turret Clock Work issued by the Clocks Advisers Forum in collaboration with turret clock restorers and the Church buildings Council.”**

- **Peter D. Watkinson** – A 50-mile radius centred on Chard, excluding the City of Bristol.

CLOCKWISE RESTORATIONS LTD.

Address: "Inside SJG Electrical", Sheepgate, Leverton, Lincolnshire PE22 0AS

Email: enquiries@clockwiserestorations.co.uk

Telephone: 01205 460989

Mobile: 07764 751896

Website: www.clockwiserestorations.co.uk

Principal Contact: Wayne Francis.

Geographic Areas Covered: UK Nationwide.

Types of Work Undertaken:

- Full clock conservation and annual servicing.
- Wheel-cutting.
- Dial restoration and new dials manufactured in wood and metal.
- Manufacturer of automatic-winders, pendulum regulators and night-silencers.
- Manufacturer of volume-reduction devices for night-time chimes.
- Carpentry.
- Council contracts.

Description of Company:

- Family-run business established in 1992. Clockwise Restorations has always been driven towards conservation-based work. We strive to maintain turret clocks in as original a condition as possible.

Statement: All our work on turret clocks complies with the Code of Practice for Turret Clock Work issued by the Clocks Advisers Forum in collaboration with turret clock restorers and the Church Buildings Council.

CUMBRIA CLOCK COMPANY LTD

Address: Castle Workshops, Dacre, Penrith, Cumbria CA11 0HL

Email: info@clockmaker.co.uk

Telephone: 01768 486933

Mobile: 07775 632452

Website: <http://www.clockmaker.co.uk>

Principal Contact: Keith Scobie-Youngs, FBHI, ACR.

Geographic Areas Covered: UK nationwide.

Type of Work Undertaken:

- Manufactures and installers of epicyclic automatic-winding systems, auto-regulators, and night silencers. These products are covered with a 10-year warranty.
- Major turret clock refurbishments undertaken with our workshops keeping to conservation guidelines and we take pride in the quality of our work. Annual maintenance contracts undertaken.
- All components are manufactured within our fully equipped workshops capable of wheel and pinion cutting and other associated clockmaking machining techniques.
- Dial restorations undertaken onsite or within our workshops, including traditional gilding and painting techniques. Rope access work using IRATA Level 3 operatives.
- All reports and quotations are given free of charge and without obligation.

Company Description:

- The main workshops are situated in the small village of Dacre in the Lake District National Park. Established in 1990 by Lynn and Keith Scobie-Youngs, both of whom are fully involved in the day to day running of the company.
- At present the company employs 22 members of staff, which consists of the office team, the workshop conservators, and external horological engineers. Five of the external horologists are situated in Sussex, Devon, Yorkshire, and Shropshire, with the Technical Service Manager working from an office in Whitchurch.
- The Company is responsible for the annual maintenance of over 1000 church and public clocks in the UK and has undertaken conservation projects to some of the country's most prestigious church and public clocks including the country's oldest clock at Salisbury Cathedral, the Astronomical Clock at Hampton Court Palace, as well as major projects at Canterbury, Durham, Hereford, Gloucester, Worcester, Truro, and Manchester Cathedrals. Other commissions include the Westminster Clock, better known as "Big Ben", and the Royal Liver Building in Liverpool.
- Clients range from the small village church to the Royal Household, Historic Royal Palaces, English Heritage, and the National Trust.

Statement: All our work on turret clocks complies with the Code of Practice for Turret Clock Work issued by the Clocks Advisers Forum in collaboration with turret clock restorers and the Church Buildings Council.

EDMUND CZAJKOWSKI & SON LTD

Address: 96 Tor O' Moor Road, Woodhall Spa, Lincolnshire LN10 6SB

Email: michael.czajkowski@tiscali.co.uk

Telephone: 01526 352895

Mobile:

Website: www.czajkowski-furniture.co.uk

Principal Contact: Michael Jan Czajkowski

Geographic Areas Covered: East Midlands and Lincolnshire.

Types of Work Undertaken:

- Mechanical servicing and repairs to turret clocks.
- Dial painting including gilding.

Types of Work Not-Undertaken: We are not electrical engineers but can arrange for automatic-winding electrics to be serviced.

Company Description:

- Established in present location in 1970.
- Please see our website for more details.

Statement: All our work on turret clocks complies with the Code of Practice for Turret Clock Work issued by the Clocks Advisers Forum in collaboration with turret clock restorers and the Church Buildings Council.

We have always tried to adhere to the Code of Practice for Turret Clock Work, and strongly agree with the recommendations.

WILLIAM HAYCOCK CLOCKMAKERS

Address: Southcliffe Works, North Leys, Ashbourne, Derbyshire DE6 1DQ

Email: info@williamhaycock.co.uk

Telephone: 01335 342395

Mobile: 07588 580893

Website: www.williamhaycock.co.uk

Principal Contact: Neil Haycock, BSc.

Geographic Areas Covered: Midlands and Wales.

Types of Work Undertaken:

- Traditional clockmaking and repairs.
- Automatic-winding installation.

Company Description:

- William Haycock Clockmakers was established in 1826 and is still run today by William Haycock's direct descendants.
- Our factory is essentially a working museum, and we still manufacture new clocks using traditional methods and tools.

Statement: All our work on turret clocks complies with the Code of Practice for Turret Clock Work issued by the Clocks Advisers Forum in collaboration with turret clock restorers and the Church Buildings Council.

H.E.S. ENGINEERING

(HOROLOGICAL ENGINEERING SERVICES)

Address: 92 Chaucer Green, Addiscombe, Croydon, Surrey CR0 7BN

Bob's key adviser, and a Non-Exec Director of Smith of Derby Limited, is Andy Burdon. Andy is a member of the Clocks Conservation Committee of the Church Buildings Council (CBC). Andy is the company adviser on all conservation matters and is working with Bob and the team to ensure the company is fit for the future and follows best practice and relevant codes of practice across all our activities.

Geographic Areas Covered: UK Nationwide and International.

Types of Work Undertaken:

- Maintenance, restoration and repairs to all turret clocks and ancillary equipment.
- New clock making.

Description of Company:

- Operating since 1856 as a family-owned turret clock maker and restorer.
- The company has a 60 strong team, dedicated to this industry, including 20 plus clockmakers across the UK with a thriving and growing apprentice scheme.
- The company mission is to safeguard skills and public timekeeping for the next generation.
- The company maintains a cherished estate of some 3,500 turret clocks of almost every type and make from St Paul's Cathedral to your local parish church or village clock.
- Our family of clockmaking companies includes some of the most reputable names in British Horology:
 - John Smith & Sons, Midland Clock Works, Derby Ltd.
 - William Potts & Sons Limited, Leeds.
 - J B Joyce & Company
 - James Ritchie & Son (Clockmakers) Ltd.

Statement: All our work on turret clocks complies with the Code of Practice for Turret Clock Work issued by the Clocks Advisers Forum in collaboration with turret clock restorers and the Church Buildings Council.

TIME ASSURED LTD

Address: 29 Paddock Close, Mansfield, Nottinghamshire NG18 5AS

Email: stephen.williams@timeassured.com

Telephone: 01623 627850

Mobile: 07896 555472

Website: www.timeassured.com

Principal Contact: Stephen Williams, FCMA.

Geographic Areas Covered: England and Wales.

Types of Work Undertaken:

- Our experienced clockmakers carry out all turret clock work, including annual servicing, clock repairs and restoration.
- Clock bell-hammer repairs.
- Dial restoration, and other gilding work.
- Automatic-winding, automatic-regulation, and night-silencing.
- Supply and installation of new clocks.

Company Description:

- Established in 2011, Time Assured is a member of the British Horological Institute and abides by the Clocks Advisers Forum, Code of Practice for Turret Clock Work.
- We are also CHAS registered.

Statement: All our work on turret clocks complies with the Code of Practice for Turret Clock Work issued by the Clocks Advisers Forum in collaboration with turret clock restorers and the Church Buildings Council.

I confirm the intention of Time Assured Limited to abide by the Code of Practice for Turret Clock Work for all our clock work.

TIMSBURY CLOCKS

Address: Dray Cottage, South Road, Timsbury, Bath, Somerset BA2 0LD

Email: timsburyclocks@gmail.com

Telephone: 01761 568050

Mobile:

Website: www.timsburyclocks.com

Principal Contact: Symon Boyd, FBHI.

Geographic Areas Covered: Approximately a two-hour drive from Bath.

Types of Work Undertaken:

- Turret clock repairs and complete restorations.
- Conservation and preservation of original movements and dials.
- Dial restorations, re-painting, and gilding.
- Reproduction of original dials.
- Automatic-winding and night-silencing.
- Re-siting of movements and dials.
- Maintenance contracts and free quotations.

Work Not Undertaken: Pendulum regulators.

Company Description:

- Symon has been working full-time as a clock restorer since 1979 and is a Fellow of the British Horological Institute.
- In 1984 he set up a business in Cheshire buying, selling, and restoring antique clocks and conserving local landmark turret clocks.
- In 2013 Symon relocated his business to Bath to be closer to family.

Statement: All our work on turret clocks complies with the Code of Practice for Turret Clock Work issued by the Clocks Advisers Forum in collaboration with turret clock restorers and the Church Buildings Council.

PETER D. WATKINSON

Address: Unit 7, Willoughby Place, Millfield, Chard, Somerset TA20 2BB

Email: peter@towerclock.plus.com

Telephone: 01460 67320

Mobile: None.

Website: None.

Principal Contact: Peter Watkinson, FBHI.

Geographic Areas Covered: A 50-mile radius centred on Chard exc. the City of Bristol.

Types of Work Undertaken:

- Conservation, repair, and maintenance of all aspects of turret clock installations and associated mechanisms, including bell hammers.
- Replacement parts made in house in a well-equipped workshop.
- Evaluation reports on the condition and requirements for repair and conservation of turret clocks.
- Off rope access to external dial-work, decoration, and gilding of dials up to 5ft in diameter up to a height of approx. 45ft (15m).
- Automatic-winding installation in a neat and tidy manner without material alteration to the clock. Also, maintenance of most older winding systems.
- Automatic night-silencing of striking.

Company Description:

- Established in July 1984 in Chard, Somerset, after seven years experience working for a long-established Surrey-based turret clock company. Previously having studied a City & Guilds maintenance technicians engineering course at Taunton Technical College for a year and attending the BHI full-time horology course at Hackney Technical College for a further two years.
- I have a 1,300 sq. ft. workshop equipped with all machinery to cover the requirements of most turret clock work, turning, milling, gear-cutting, grinding, light forge work, welding and fabrication, and woodwork.

Types of Work Not-Undertaken: I do not undertake bell-hanging work other than very small non-swinging bells. I do not work on electronic or digital control systems.

Statement: All our work on turret clocks complies with the Code of Practice for Turret Clock Work issued by the Clocks Advisers Forum in collaboration with turret clock restorers and the Church Buildings Council.

I am very happy to consult with the Turret Clock Advisory Panel where I think an adjustment or addition is necessary to the dial drive-out, bell hammer cranks or weight-line pulleys to enable a reduced weight to be used to reduce wear and for the better running of the clock.

LIST OF ADDITIONAL TURRET CLOCK RESTORERS TO BE INCLUDED IN A FUTURE SECOND EDITION OF THE CONTACT LIST

CRACKSTONE CLOCKS LIMITED

Address: 11 Dr Browns Road, Minchinhampton, Stroud, Gloucestershire GL6 9DD

Email: service@crackstone.co.uk

Telephone: 07425 984768
